

# Declaration of Consent

for the creation and use of an AI Counterpart

**Controller:** [company name of the Client], [address]

**Processor:** SynTwin GmbH, Hechtseestr. 62, 81671 Munich, Germany

**Data protection contact of the Controller:** [name/contact details, if a data protection officer has been appointed]

## 1. Subject of the Consent

I consent to the processing of video, image and audio recordings created by me for the purpose of generating an AI Counterpart. The AI Counterpart replicates my appearance and my voice by means of artificial intelligence and communicates on this basis with third parties (e.g. prospects, customers, employees of the Controller). It will be used for the following purposes ticked by me:

- Sales communication and lead qualification (e.g. initial conversations with prospects, product presentations, appointment scheduling)
- Product advice on the company website
- Customer communication and support
- Internal training and knowledge transfer
- Other: \_\_\_\_\_

Any use for purposes other than those ticked above requires my renewed consent.

## 2. Data Processed

The following data are processed: video recordings (face, facial expressions, gestures), audio recordings (voice, intonation, pronunciation), my name and, where applicable, my role/title (for the presentation of the Counterpart), as well as the voice and video models generated from them. The processing of voice and facial characteristics serves exclusively the creation and operation of the AI Counterpart (synthesis); no matching for the purpose of identifying or verifying my identity takes place.

## 3. Recipients

The processing is carried out by SynTwin GmbH as a processor (*Auftragsverarbeiter*) acting on behalf of the Controller. SynTwin uses sub-processors, in particular in the categories of cloud infrastructure and hosting, video avatar generation and speech synthesis; the current list is available at [www.syntwin.ai/avv-saas](http://www.syntwin.ai/avv-saas). In this context, data may be transferred to third countries (in particular the USA); such transfers are safeguarded by the guarantees documented there (in particular the EU Standard Contractual Clauses).

## 4. Storage Period

The recordings and the generated voice and video models are stored for as long as the AI Counterpart is operated for the Controller. After termination of the contract between the

Controller and SynTwin, a retrieval and reactivation period of three months applies; thereafter, the recordings and models are deleted within 30 days. Independently of this, I may request the deletion of the source recordings at any time; the use of the Counterpart already created on the basis of this consent remains unaffected thereby until I revoke my consent.

## 5. Legal Basis

The processing is based on my express, informed consent (Art. 6(1) lit. a GDPR). This consent also includes the permission to use my image and my voice for the purposes ticked above (protection of the general right of personality (*allgemeines Persönlichkeitsrecht*), in particular the right to one's own image and one's own voice).

## 6. Voluntary Nature and Revocation

This consent is voluntary. I will not suffer any disadvantages if I do not grant it or if I revoke it at a later time. I may revoke this consent at any time with effect for the future by notifying the Controller or SynTwin GmbH directly (mail@syntwin.ai); SynTwin will forward any revocation received by it to the Controller without undue delay. The revocation does not affect the lawfulness of the processing carried out until the revocation. In the event of a revocation, the AI Counterpart will be deactivated without undue delay; the source recordings and the generated voice and video models will be deleted.

## 7. My Rights

I have the right of access (Art. 15 GDPR), the right to rectification (Art. 16), erasure (Art. 17), restriction of processing (Art. 18) and data portability (Art. 20), as well as the right to lodge a complaint with a data protection supervisory authority (Art. 77 GDPR). The competent authority is the supervisory authority of the German federal state in which the Controller has its registered office.

## Consent

- I have read and understood the above information. I expressly and voluntarily consent to the processing of my video, image and audio data for the creation and use of an AI Counterpart for the purposes ticked above.**
